

# Wisbech & Villages Say **NO** to the Incinerator

- It will emit toxins and other particulate poisons that will pollute or contaminate air, soil, and water, defeating recycling quotas and carbon reduction goals
- Lorries will import mixed waste from miles away and store it here
- There will be 300 lorry movements daily, 365 days a year around Algores Way, New Bridge Lane, A47, Weasenham Lane
- The residue and ashes will also be contaminated and go to landfill
- Wisbech has no railway or dual carriageway
- We have 9 schools, 3 of which will be very close to the Mega sized Incinerator
- We are an historic market town with a growing population of approx 35,000 plus the nearby villages.
- This will impact us all
