# STOP THE WISBECH INCINERATOR!

I strongly oppose proposals for one of the biggest incinerators in the country to be built in Wisbech.

These proposals would involve 300 lorry movements a day, bringing both household and commercial waste from up to a 2 hours' drive away, with 3 schools located within 700m, including our largest secondary school. The plant will burn 365 days a year, lorries from 6am to 7pm. Wisbech is already recognised as having poor air quality. Residents' physical and mental health will be put at risk.
